|                                                           |   | 18 to 20   »   »     | £. 10. the 100 |

Specimen plants from 2 to 3 feet diam. in different varieties can be had on demand.

Azaleas of my own selection: 100 plants in 25 good varieties, full buds from 10 to 12 inch. diam. £ 4 and £ 5.

10.000 good market plants in mixed varieties can be had at £ 5. the 100.

## Azalea Mollis.

To be had from September till March. These are well adapted for early forcing and flowering, in order to cut from in winter, requiring but little attention to have them in bloom before Xmas, they are very free-flowering varying in all colours and the flowers are as large as those of the Rhododendrons, they are also perfectly hardy and stand the winter out of doors.

Fine mixed seedlings varying in the shades of rose carmine, salmon, red, orange, yellow etc.

|                                       |                |

| »   »   »   :   »   25 to 30   »      | £ 2.10   » 100 |

### Named Varieties : My own selection :

12 fine varieties with 10 to 25 buds. 10/— 14/— 18/—  
 100 fine plants of sorts with 10 to 15 buds. 60/— 80/— 100/—

## Azalea rustica flore pleno

(*Hybr. azalea mollis, Azalea occidentalis*)

12 Fine varieties well set with buds from 30/— to 50/—

P. S. — Th<sup>re</sup> Delaruye-De Mulder will be happy to forward at any time on application a special quotation for large quantities, also of his half specimens and specimens, of which he holds a splendid stock of azalea indica, azalea mollis, Rhododendron and Camellia.

## Rhododendrons

Are cultivated on a large scale, good and strong plants can be had at very moderate prices.

Customers are kindly requested to state if they require rhododendrons for bedding, or for forcing : these last ones are always squat and ramous plants.

*Rhododendrons to name :*

|                   |              |            |
|-------------------|--------------|------------|
| 100 plants having | 8 to 10 buds | £ 5. 0. 0. |
| 100 »             | » 10 to 15 » | £ 6. 0. 0. |
| 100 »             | » 15 to 20 » | £ 7. 0. 0. |

## Camellias

Particular care is given to this culture and an immense quantity of plants are always to hand Good plants can be obtained at very reduced prices but orders should be given at once.

Good varieties for forcing to name.

Good budded plants from £ 4. 0. 0. to £ 8. 0. 0. the 100.

## Clivia. (Imantophyllum)

One of the most effective and useful flowering plants. As a plant for appartments it can hardly be surpassed. The flowers are of a bright red, and last for a very long time. They flower during winter and spring. The Clivias I am offering are of the finest strain, all with upright and large flowers.

100 strong plants 2 years old, 20 to 40/—

100 strong plants 3 years old, 60 to 100/—

Clivia can be supplied by thousands of all sizes; special prices for large quantities.

Clivia seeds can be obtained from January till June at very low prices on application.

## Bulbs : Begonia — Gloxinia

I call special attention on the 150,000 Begonia and Gloxinia. I am growing every year. My collection consists only of the best erect flowering strain. Many first prizes having been awarded.

## Laurus nobilis

### Sweet Bay

These very ornamental trees are grown in my establishment on a large scale. Having been very succesfull with them for the last three Years, in Great Britain I expect that a good many nurserymen and tradesmen, will try to introduce them more than ever, t is a beautiful and useful tree, specially well adapted for the decoration of gardens etc.
